

Press Release 2011/12 #1

Castlegem sponsoring LXCenter – Kloxo and HyperVM

As a long term member and participant in the Open Source community, Castlegem is proud to announce its sponsorship of LXCenter.org – publisher of KloxoCP and HyperVM.

This sponsorship falls in line with the already existing sponsorship of CentOS, which Castlegem initiated several months ago.

Castlegem understands the importance of open source, the Linux community, and its invaluable input and contribution to the furthering and development of the internet and its application.

Sponsoring LXCenter, thus, is just a logical follow up to give back to the community and appreciate their share in today's enhancement of the Internet as a whole.

Castlegem supports both Linux and Windows guests, and Castlegem is a proud Red Hat partner, CentOS and LXCenter (Kloxo, HyperVM) sponsor. Castlegem actively supports over 40 projects for sustainable development.
