

Press Release 2012/03 #1

Castlegem and Minecraft: a powerful symbiosis

Since autumn 2011, Castlegem has been offering special deals to the gaming community, in particular to clients wishing to host a server for the famous Minecraft game.

For customers seeking Minecraft hosting, Castlegem offers US West Coast, UK, and Continental European (AT) locations for virtual private server (VPS) and dedicated servers.

All points of presence feature state of the art data centres, multiple redundant power feeds, A/C, and bandwidth feeds. Latencies, uptime, and throughput are outstanding, effectively ensuring a 100% uptime.

Individual setups can be configured, such as E3 servers with 32GB memory, SSD drives, special bandwidth allocations, and more.

Castlegem offers special and unique discounts to clients hosting Minecraft servers, whether on a VPS or dedicated server, with long term deals receiving the most favourable terms.

Clients needing to focus on running their Minecraft servers can also opt for the managed option at a discount, Castlegem will gladly handle the server administration allowing our customers to grow their core business.
