

Castlegem setting up LDEX as Traders' Paradise and Stronghold

We are happy to announce the expansion of our LDEX PoP into the main point of presence for Forex, commodity, stock, options, and betting traders in the UK.

We offer the latest Intel E3 v3 and E5 v2 based servers, along with low latency and redundancy in all aspects:

- A + B feed;
- Multi-homed transit;
- Strong peering;
- Redundant routers;
- Redundant switches;
- Ample spare capacity of dedicated servers and virtual private servers;

Along with very low ping times to financial centres not only in London, but the entire EU, plus fast connections to New York and Chicago, we can ensure a smooth and successful trading experience for our growing money market clientele.

Get your bespoke trading solution from Castlegem – the diamond hosting company among ISPs.
